TOWN OF NORTHLAKE TO HOST PUBLIC INPUT MEETING, CONSTRUCTION AND REALIGNMENT OF CLEVELAND-GIBBS ROAD

NORTHLAKE, TX – The Town of Northlake will host a public meeting regarding the realignment and construction of the two southbound lanes of Cleveland-Gibbs Road south of FM 1171 on Tuesday, January 21, 2020 at 5:00 pm in the Town of Northlake Council Chambers.

Halff and Associates, the design engineers for the project, will attend to discuss the project, answer questions, and address concerns.

The project, which could begin as early as summer of 2020, will improve safety and accessibility of Cleveland-Gibbs Road between Cross Timbers Road and Northwest Regional Airport. Halff and Associates anticipates construction to last approximately one year.

The project continues the reconnection of Cleveland-Gibbs Road, a once vital north-south thoroughfare for Northlake that predates I-35W. Construction will begin with two of the ultimate four lanes of the future roadway.

The new alignment also separates truck and passenger vehicle traffic from airplanes entering and exiting the nearby Northwest Regional Airport, allowing for safer travel along the road for residents and thru traffic.

Upon its completion, this project will also provide access to isolated areas of the Town, opening the area up to economic opportunities that will ultimately benefit the Town and its residents.

Those interested in providing input or receiving more information may attend the public input meeting on January 21, 2020 at 5:00 pm in the Town of Northlake Council Chambers, located at 1500 Commons Circle, Suite 300, Northlake, TX, 76226.
