

CLEVELAND GIBBS ROAD AND FM 407 INTERSECTION IMPROVEMENTS

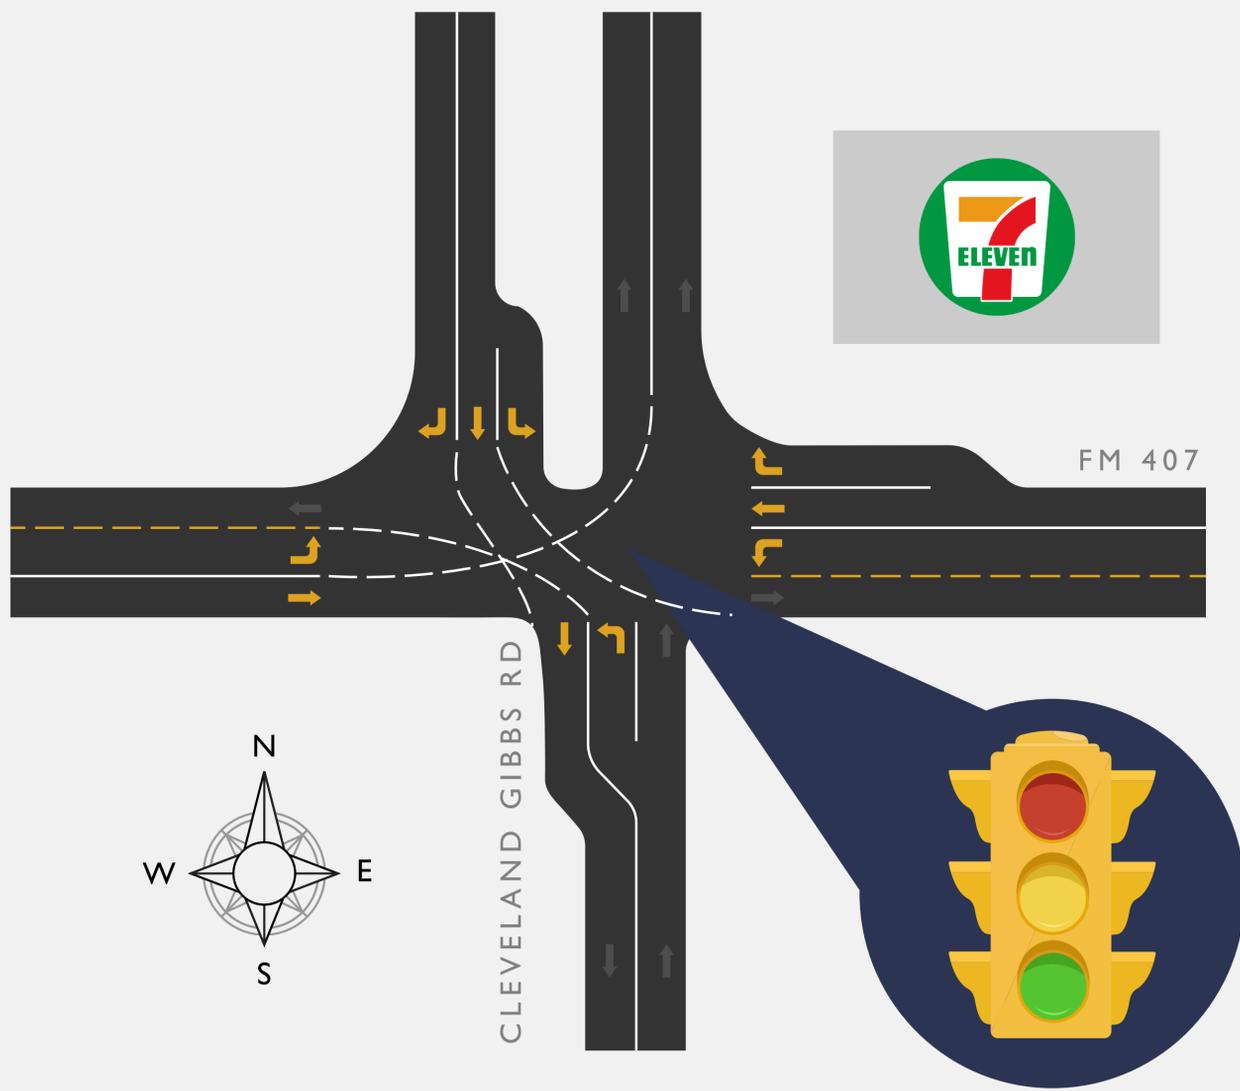

Due to increased traffic levels in the area, the Northlake Town Council, in partnership with TXDOT and the Belmont Freshwater Supply District, determined that improvements to the intersection of Cleveland Gibbs Road and FM 407 were needed to protect the safety of Northlake residents and visitors. The planned improvements include expansion of the intersection, the addition of turn lanes, and a traffic signal at the intersection.

Construction on this long-awaited project begins next week; check out the information below to find out more!

PROJECT MAP

PROJECT FUNDING

TURN LANES

40%
THE TOWN OF NORTHLAKE

60%
BELMONT FWSD#1

Construction costs for the left turn lanes will be shared by the Town of Northlake (40% of total cost) and the Belmont Freshwater Supply District #1 (60% of total cost).

TRAFFIC SIGNAL

The Texas Department of Transportation (TXDOT) will fund and install the traffic signal.

SCHOOL STARTS AUGUST 17!

Please practice safe driving as students return to in-person learning options at both Argyle ISD and Northwest ISD.

PROJECT TIMELINE

AUGUST 17 - 21, 2020

Existing pavement will be cut in preparation for improvements; various lanes will be closed.

AUGUST 31 - SEPTEMBER 4, 2020

Crews will begin applying asphalt to the roadway; various lanes will be closed.

AUGUST 24 - 28, 2020

Flex base will be put down for temporary traffic detours; expect traffic delays in the area.

SEPTEMBER 8 - 11, 2020

The roadway will be striped and traffic signage will be posted; various lanes will be closed
